2015 - Present: Walter P Moore – Senior Traffic Engineer

PROFESSIONAL MEMBERSHIPS

KCITE, MOVITE, ITE, KAUTC, KSPE, NSPE, ITS Heartland, ACEC-KS

STATEMENT

I have had the opportunity to be involved with KCITE throughout my career which has introduced me to many people in the industry as well as helped maintain existing relationships. A couple years ago I had the opportunity to be on the training committee for KCITE and I hope to return to KCITE in a larger role as Member Director. This will allow me to give back to the organization that has provided me with many positives throughout the past 10 years.

The current board members have done a great job these past couple years of providing numerous quality training opportunities, as well as finding interesting topics and new meeting locations. I will strive to build upon what they have done and continue to improve and grow KCITE. I believe a goal of the organization should be to target younger engineers to ensure that the organization continues to grow. To accomplish this, we should encourage our existing members to bring new graduates to the meetings as well as having KCITE organized get-togethers focused on the younger members.

I look forward to helping KCITE continue its strong traditions as a great ITE local chapter. Thank you.
