2014 – Present: gba Systems Integrators

PROFESSIONAL MEMBERSHIPS

KCITE, ITE, MoVITE, KAUTC, IMSA

STATEMENT

I have been a member of KCITE since 2010 and in the past 3 1/2 years I've had the opportunity to be a part of both the training committee and part of the arrangements committee for KCITE. I have had great experiences building relationships with the many professionals that are a part of the Transportation Engineering field, within and outside of our membership. I hope to continue to learn and grow as the Member Director. As Member Director, I would like to continue providing great training opportunities to increase our members' knowledge of current practices and new innovative ideas in the world of transportation. I am also looking forward to working with other KCITE board members to continue building and retaining our membership.
