STATEMENT

The experiences I have gained as Member-Director, Secretary-Treasurer and as Vice-President have expanded my knowledge of the wants and needs of KCITE as an organization. One must always remember that these wants, and needs are those of the organization's members. My professional dealings with the membership of KCITE are a rewarding experience. Knowing the members of KCITE and working with the KCITE Board to enhance this organization has been a very positive experience. Because of KCITE I have had the great opportunity to learn and build relationships with other professionals and gain technical knowledge.

I hope to continue these experiences as President. I will always work diligently with the KCITE Board and the KCITE members to support and maintain this quality organization. I look forward to the duties required as President and the personal and professional opportunities to serve the membership of KCITE that this position will provide.
