2018 – Present: HNTB, Kansas City, MO — Transportation Planning Engineer/Project Manager
2012 – 2018: GBA, Lenexa, KS — Traffic Engineer

STATEMENT

I am excited to be considered for the KSITE Member Director position. KSITE has been great to me in my ten years as a member, and I would love to give back more to the organization. I have been fortunate enough to meet with and work with so many of its members in some capacity, and I hope that continues over the next ten years.

Our board and committee members did a tremendous job over the past 18 months of continuing to make interesting and topical speakers and trainings available to our members. As we move into 2022, I believe we can continue offering these virtual opportunities to make certain events more accessible, while still promoting in-person attendance and growing networking opportunities, which I and so many others realized last year was invaluable. I look forward to getting feedback from members of the organization to see how they would like to see the organization evolve and working with the board to strike that right balance.
