- Member

Institute of Transportation Engineers (ITE)
- Member

STATEMENT

I have enjoyed serving as the KSITE secretary/treasurer this past year. It has been a great experience working with the other board members, and I have learned a lot in managing the section's financial records.

I value the relationships I have built with the board members and other KSITE members who volunteer their time on committees. I hope to continue to serve alongside the board members as the Vice President for the upcoming year and work with the arrangements committee to organize relevant and meaningful section meetings in 2022.
