Statement

Over the past ten years I have enjoyed expanding my knowledge and building relationships through KSITE. In the last two years, I have served on the training committee where I have enjoyed developing relationships and identifying training opportunities to bring to members.

As Member Director, I would strive to help raise awareness of KSITE to encourage more active engagement and expand membership. In addition, in this role I look forward to continuing to work with the training committee to provide trainings that help further the knowledge of our community.
