ITE, KSITE, MOVITE, APWA

KSITE - Arrangements Committee, 2022 & 2023
APWA - KC Metro Awards Committee, 2021 & 2022

Statement

I have enjoyed my time as a member of KSITE, and hope to represent our great organization over the coming years as the Section Representative. I first began attending meetings in 2016 with some fellow colleagues at Olsson. I remember at first being overwhelmed with the amount of people in the industry that already knew each other and the great relationships they had built. Over time, I have gotten to know more members of our KSITE section and look forward to getting to know more members over the coming years.

I have served on the Arrangements Committee for our KSITE section the past couple of years which has allowed me to organize meetings and find interesting topics relevant to our group to be presented on. I enjoyed this planning process and take pride in the meetings we host for our organization.

As Section Representative, I will continue to take pride in our section and ensure we are well represented at all MoVITE events. I look forward to the exchange of ideas and discussions that will take place amongst the fellow section representatives and will bring those ideas back to KSITE to improve our organization. Thank you for your consideration!
