ITE, KSITE, MoVITE, ITS Heartland

STATEMENT

As KSITE treasurer/secretary I have enjoyed my duties to help guide our section while ensuring financial stability and transparency of KSITE. As treasurer, my role and responsibility was to maintain the groups finances, including budgeting, record-keeping, and updating the board on how our organization is running. This experience has been a rewarding one to serve as the financial manager and help grow our group. I am appreciative of the support and collaboration provided by the rest of the board and members, and have witnessed the dedication and commitment of them to KSITE, and I'm honored to have been a part of it. This role has not only enriched my understanding of financial stewardship but also strengthened my connection to the organization and its mission. I look forward to continuing to work alongside my fellow board members and furthering our collective goals as Vice President. Thank you for this invaluable experience and the chance to serve our organization.
