Professional Traffic Operations Engineer (2022)

WORK EXPERIENCE

Civil Engineer, Burns & McDonnell, 2016-Current
Specializing in Traffic Engineering and Analysis

PROFESSIONAL MEMBERSHIPS

ITE, KSITE, MoVITE

STATEMENT

Thank you for considering me for KSITE Member Director. I believe KSITE is a great organization for fostering the growth of professional engineers in the transportation field, expanding our collective knowledge, and connecting the lessons we learn through our work with the challenges facing our profession.

My involvement in KSITE includes serving on the Arrangements Committee from 2023 through 2025 and the Training Committee beginning in 2026. These roles reflect my commitment to supporting opportunities for members to connect and grow professionally. Beyond KSITE, I have contributed to knowledge sharing through MoVITE presentations. Sharing project experience and discussing transportation challenges with peers are important ways we can learn from one another and bring new perspectives to our work.

As Member Director, I would support meaningful technical programming, practical training, and opportunities for members at all career stages to become involved. I want to help KSITE remain a welcoming place where engineers can ask questions, share experience, and expand their knowledge of transportation engineering. I would welcome the opportunity to give back to the organization and help strengthen the connections and continuing education that make KSITE valuable to its members. Thank you for your consideration and support.
